About Me

Motivated and security-conscious developer with a strong interest in software engineering, DevOps, and technical consulting. As a recent graduate, I have developed skills and most interested in building and deploying scalable applications using cloud platforms (AWS, Azure), containerization tools like Docker, and CI/CD pipelines such as GitHub Actions and many more. Eager to apply my skills across diverse technical roles. Finally I built a SaaS transcription tool to apply scalable infrastructure and real-time processing concepts.

Education

Heriot-Watt University (HWU), Edinburgh, United Kingdom *Sept 2021 – June 2025*
Bachelor of Science in (Hons) in Computer Science *Grade: First Class*

- Achieved the Deputy Principal Award for Academic Performance in 2022 and 2025.
- Achieved an 'A' in core modules such as 'Software Engineering', 'Data Communication and Networking' and 'Computer Network Security'
- Completed a research project on predicting stock market prices using sentiment analysis based on tweets.

The Indian High School (IHS), Dubai, United Arab Emirates *Apr 2008 – Mar 2021*
Secondary and High School Education

- Graduated High School (XII) in Business, Accounting, Economics and Computer Science (Grade: 85%)
- Graduated Secondary School (X) in 2019 (Grade: 82%)

Work Experience

Lab Demonstrator — Teaching Assistant *Heriot-Watt University, Edinburgh* *Jan 2025 – April 2025*

- Lab demonstrator for Introduction to Computer Systems
- Working alongside student groups in lab tutorials weekly.
- Assisting and grading students with issues and submissions regarding the course

Lab Demonstrator — Teaching Assistant *Heriot-Watt University, Edinburgh* *Sep 2024 – Dec 2024*

- Lab Assistant for Data Communications and Networking Module
- Grading students on networking courseworks and giving remarks on their work immediately
- Assisting students with issues and queries regarding the course

Low Code Intern *Sharaf DG, Dubai, UAE* *Jun 2023 – Sep 2023*

- Supported application development and resolved issues by collaborating with other developers.
- Assisted in troubleshooting and brainstorming new application feature ideas.
- Wrote documentation that clearly and concisely described the technical architecture of the application.
- Wrote documentation for end users using the application.

Projects

dissub.io - SaaS Transcription & Subtitle Platform

dissub.io 

- **Aim:** Scalability: designing scalable, resilient platforms across AWS EC2, S3, Cloudflare and Linux-based infrastructure. Also testing out billing and webhooks with stripe
- Built a Next.js app with serverless APIs and FFmpeg video processing, leveraging open-source models and third-party services for accurate subtitles in 50+ languages.
- Integrated Stripe webhooks for credit-based billing, PostgreSQL for data persistence, and S3 for file storage.
- Hosted on an Ubuntu 20.04 LTS VM with Nginx reverse proxy, PM2 process manager, Cloudflare for CDN, network safety and SSL management.

- Supports multi-format uploads (MP3/MP4/WAV), word-level timestamps, subtitle embedding, and a real-time React dashboard with Clerk authentication.

Awards

TDRA / UAE Hackathon - Zayed University *Dubai, United Arab Emirates* *Feb 2023 – Mar 2023*

- Designed and pitched a web application for startups and venture capitals - providing company insights from startups to established businesses
- Received extraordinary participation certificate

Deputy Principal Award - Heriot-Watt University *Aug 2022*

- Received Deputy Principal Award for achieving an A in at least 6 modules for one year

Skills

Languages: Python, Javascript, Bash

Technologies: Docker, GitHub Actions, AWS, Vim, Linux, SQL, Cloudflare, Terraform, Git, Kubernetes

Soft Skills: Leadership, Communication, Team Collaboration, Problem-Solving
